

TIME FOR CUTTING EDGE TECHNOLOGY

Perpetual Calendar Collection

This month, **Citizen** will launch its new Perpetual Calendar Collection - representing the next generation of 'Unstoppable' style, design, and technology.

The **Perpetual Calendar** is a state of the art timepiece featuring functionality, which, once set, automatically adjusts to the correct date as well as leap-year through to the year 2100.

The ultimate in performance and convenience, the Perpetual Calendar is the must-have timepiece for those who demand high-end design and leading technology.

These new contemporary chronograph timepieces come in two styles to suit the individual's taste – Stainless steel or two tone black stainless steel. Featuring Eco-Drive technology with 270 days power reserve, combined with chronograph, dual time, alarm and WR200, the perpetual calendar is the ultimate in performance and convenience.

Citizen's Eco-Drive technology harnesses the power of light – from any natural or artificial light source and converts it into energy which is stored in an Eco-Drive energy cell.

Unstoppable possibilities.

Citizen Perpetual Calendar model BL5364-54E RRP\$699.00
