CITIZEN ECO-DRIVE 'SUPER AQUALAND' HITS AUSTRALIAN SHORES

When venturing into the deep, reliable equipment is essential. The next generation Citizen Eco-Drive 'Super Aqualand' is designed and engineered to provide total confidence to those seeking the underwater experience.

On detection of water, the depth sensor kicks in prompting the function hand to indicate the depth of the dive up to 50 metres, it also features chronograph function, one-way rotating bezel, screw case back and screw lock crown, and is water resistant to 200M.

Encased in a stainless steel construction. This new model features Diamond Like Carbon (DLC) coating on the bezel, crown and depth sensor, providing a smooth finish and elegant tint, with excellent abrasion resistance.

Powered by Eco-Drive technology, the 'Super Aqualand' ensures precision and reliability, no matter how unforgiving the conditions.

Citizen's Eco-Drive technology harnesses the power of light – from any natural or artificial light source and converts it into energy, which is stored in an Eco-Drive energy cell. It recharges continuously in any kind of light to run forever.

Citizen Eco-Drive Super Chronograph model BJ2120-07E \$950rrp.
